Mr. Walter Smith
BELL ASBESTOS MINES LTD.
P.O. Box 99
Thetford Mines, P.Q.
G6G 5S4

Dear Walter:

As requested in your telephone call on Nov. 24 we are forwarding you 20 lb. samples each of 5K28, SP5K28, 5R28 and SP5R28.

We understand that these will be evaluated by Mr. Bernard Lincoln in the T&N labs in the UK as possible replacement for Clinton Creek and Havelock fibres. We understand that there may be a need for several thousand tons per year of group 5 that this need will not likely develop before 1980.

If we can be of any further assistance please get in touch.

Yours very truly,

M.D. Webb
Manager Engineering & Technical Services
