

1 wouldn't you?

2 A Possibly.

3 Q So if Owens-Corning Fiberglas, in its
4 documents, showed that they knew more than what was in
5 the medical and scientific literature, the
6 state-of-the-art, as you described it, wouldn't have
7 any relevance to that particular issue, would it,
8 Doctor?

9 A If that is true, it might have less
10 relevance.

11 MR. IGNATOWSKI: Your Honor, I just want to
12 look through some things and move on pretty quickly.
13 Just give me a moment.

14 (Whereupon, pause.)

15 BY MR. IGNATOWSKI:

16 Q Doctor, I asked you questions about the
17 Dreessen report, that was the one in 1938, correct?

18 A Yes.

19 Q In Dreessen they found a number of
20 individuals who developed the disease below the five
21 million particles per cubic foot, did they not?
