IHF-584

December 7, 1936

Mr. H. B. Meller, Managing Director,
Air Hygiene Foundation of America,
Thackeray Ar. & O'Hara St.,
Pittsburgh, Pa.

Dear Harry:

Yours of December 3rd was not received until I had already written and dispatched mine of December 4th to Mr. C. J. Stover.

I sent you a copy of my letter to Mr. Stover and you will, therefore, have noted my suggestion to him that he provide copies of Application and Scale of Charges to all members of the asbestos industry and urge their participation.

I have not as yet heard from him but I will advise you of his reply as soon as I am in a position to do so. My feeling is it would be well to have Stover bring the matter to their attention in the first instance and that, thereafter, they be followed by you.

I have today received your communication relative to the applications for membership, effective January 1, 1937, of American Air Filter Company, Copperweld Steel Company, Magma Copper Company, North American Refractories and Trenton Potteries. You may use this letter as my appoval of these applications.

I also wish to acknowledge receipt of the list of those attending the November 24th meeting and copies of letters you are sending to the various groups who were present at the meeting or invited to attend.

I also want to acknowledge your letter attaching proof of report presented by Mr. Waters on behalf of the Legal Committee, being "A Study and Criticism of Provisions for

IM-83

Occupational Disease Legislation".

A copy of this study was presented to me in typewritten form when I was in Pittsburgh and I am, therefore, in a position to advise you promptly that I approve your having it printed as Legal Series, Bulletin No. 2, Part I.

With kindest personal regards, I am

Sincerely yours,

Vandiver Brown
General Attorney
