Protests Lay in Road

Way Blocked Since 1939 Is Complaint

SAN FRANCISCO BUREAU, SAC—TO, April 20.—A four mile stretch of highway between Sausalito and Sausalito in the San Francisco Valley—begun and completed in 1939, and left in that state since—brought the heads of State highway engineers today. William Lloyd Lowrey of the department of public works protesting the delay, himself "fed up with the delay being accorded my dis-

not blame the highway department," he told the committee. "I place the blame on the engineers of the department of highways who have delayed this project for the last twenty years."

Thomas McCormack, state legislator, joined Lowrey's protest. Legislators received from the Public Works Director C. W. H. assurances that the project was scheduled for consideration immediately after the war.

SELF-CLEANING HOUSE PAINT STAYS WHITE

Home Owners Get Whiter White Houses with Paint Developed Scientifically by DuPont.

Du Pont House Paint is so brilliantly white because it's made with titanium dioxide, the whitest paint pigment known to science! This paint stays white, too, because—

It's Self-Cleaning

Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash this powder away, taking dust and dirt with it, and leaving the surface clean and white again. (Excessive accumulations of dirt, particularly in sooty industrial communities, or in heavily shaded locations, may delay or interfere with this process.) Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

Guards the Surface

Du Pont House Paint forms a beautiful, durable coating that protects against rust, rot and decay. Also available in popular tints. When you have your house painted, use the paint that gives it lasting beauty and lasting protection.

Yet Du Pont House Paint costs no more than other good paints. Call in a reliable painter. He'll be glad to use Du Pont House Paint.
