A Well, an order of magnitude lower from .1 to .01 is certainly consistent with the others on this paper, but you are correct, yes.

Q In addition, Mr. Sheehy also included many short fibers may induce a tumor as easily as a few long fibers.

Doesn't he have that under fiber size and potential health effects?

A Well, he has no basis to put it there, but he does state that, yes.

Q Now, sir, on a number of places you refer to Dennis Roberts, and I believe you have cited him on one, two, three, four, five --

A This is one.

Q One study.

A Two, three.

Q So you would consider Mr. Roberts to have contributed three studies, one of which would include three different places; is that right?

A Let's understand, these are NIOSH studies. He happened to be the technical person who prepared
