Borden Chemical
Mr. Bruce Van Voorhis
511 Lancaster St.
Leominster, Massachusetts 01453

Dear Bruce:

Thank you for the opportunity to discuss your future needs in regard to Ambient Air Monitoring of vinyl chloride in your plant.

The Foxboro Analytical system will provide you with the data you need for compliance to the various regulations. The standard software package provides reports based on shifts; daily, weekly, and monthly. Reports available include T.W.A. and Alarm data.

Foxboro's service organization is factory trained to support the Ambient Air systems. Service for your system would be from our Wrentham, MA office. If you need service, contracts are available.

I am enclosing brochures describing our system. These brochures are presently in for revision to incorporate new features. As soon as the new brochures are out, I will forward them to you.

If in the meantime, I can be of further assistance, please feel free to contact me.

Yours truly,

THE FOXBORO COMPANY
