

Plumbing fixtures, 801
 Pneumatic control system, 702
 Pneumonia, 50, 617, 623, 625
 Pollen, 623
 Pollution of air, 81
 Polyphase motors, 723
 Ponds, cooling, 531
 Positive-acting control, 702
 Post-operative pneumonia, 617
 Potassium permanganate, 532
 Potentiometer, 842
 Power, 842
 conversion equations, 849
 electric, 766
 supply for controls, 702
 railway air conditioning, 631
 Precipitators, dust, 545
 Premature infants, 618
 humidity of, 619
 mortality of, 620
 requirements of, 619
 Pressure, pressures,
 absolute, 835
 air,
 measurement of, 827
 atmospheric, 823, 836
 for atomization, 522
 automatic control, 701
 barometric, 189, 835
 basic, 3
 controllers, 701
 conversion equations, 849
 drop, 584, 807
 drop through refrigerant pipe, 480
 dynamic, 838
 gage, 824
 loss in copper pipe, 345, 480
 loss through ducts, 581, 661
 measurement of, 823
 partial, Dalton's law of, 1
 of saturated vapor, 12
 static, 843
 steam,
 in direct heating, 781
 drop, 284, 310, 315
 initial, 310
 in orifice systems, 297
 saturated, 28
 in sub-atmospheric systems, 295
 total, 844
 vapor, 31, 845
 velocity, 845
 water, 27, 805
 Prime surface, 842
 Processing, 639
 cooling systems, 463, 639
 industrial temperatures and humidities for,
 640
 of textiles, 644
 unit heaters, 441
 Propeller fans, test code for, 552
 Psychrometer, 842
 sling, 830
 Psychrometric,
 chart, 25, 58, 59, 60, (back cover)
 for drier, 672
 explanation, 25
 tests, 57
 Pulmonary disturbances, 623
 Pump, pumps,
 centrifugal, 340
 characteristics, 187
 circulating, 339
 condensation return, 299
 heat, 466, 765
 vacuum, 293

 mercurial, 826
 optical, 826
 radiation, 826
 thermo-electric, 826

Q-R

Quality,
 of air, 67, 68, 69
 impaired by recirculation, 81
 Quantity,
 of air,
 measurement of, 827
 necessary for ventilation, 68, 69, 72, 156,
 627
 of cooling water, 529
 Radiant heaters, 759
 Radiant heating, 769
 physical and physiological factors, 769
 Radiation, 842
 by black body, 775
 drying with, 665
 equivalent direct, 311
 heat loss by, 74, 770
 by human body, 74, 770
 load, 258
 of pipe, 738
 by radiators, 269
 solar, 149, (see also *Solar Heat*)
 occlusion of, 82
 through walls, 150
 ultra-violet, 73, 80
 Radiator, radiators, 269, 842
 A.S.H.V.E. code for, 277
 column, 836
 concealed, 837
 condensation rate in, 273
 connections, 326, 354
 control of, 703
 correction rating factors, 277
 effect of superheated steam, 271
 enclosed, 274
 gas-fired, 228
 heat emission of, 269
 heating capacity of, 270
 heating effect of, 272
 for hot water systems, 346
 output of, 270
 paint, effect of, 271
 panel, 827
 pipe coil, 269
 ratings of, 264
 recessed, 842
 selection, 276
 tube, 829
 types of, 269
 wall, output, 270
 warm air, 228
