Good Afternoon,

Please find the attached meeting request from the National Mining Association's President and CEO, Rich Nolan, related to pending applications for royalty relief from Arch Coal and Peabody Energy as well as other interested stakeholders, including the Utah Mining Association and Wyoming Mining Association. Although the guidance the Department issued has been helpful, there are some clarifications which our member companies could use. Given that the Department is quickly evaluating the applications and although our member companies are appreciative of that evaluation, we would like to ensure that we have an opportunity to answer any questions before a response.

Please let me know if you have any questions and we appreciate your attention to this request.

V/r,

Justin Prosser
Director, Congressional Affairs
National Mining Association
101 Constitution Ave. NW, Suite 500 East
Washington, D.C. 20001
Phone: (202) 463-2600
Direct: (202) 463-2621

RICH NOLAN
President & CEO

May 11, 2020

The Honorable David Bernhardt
Secretary
Department of the Interior
1849 C St., NW
Washington, D.C. 20240

Secretary Bernhardt:

On behalf of the National Mining Association (NMA) and its members, we thank you for your leadership during these difficult times. As our nation begins to chart a new economic path forward amidst the COVID-19 pandemic, we ask that you continue to prioritize our nation's mining sector, which has been particularly hard hit with significantly reduced demand, a surplus of inventory, and is bracing for uncertainty.

Our industry appreciates the recently published guidance for coal companies seeking royalty relief as well as your willingness to thoughtfully engage with us as we navigate this unfamiliar process. As we work closely with our member companies to support their pending royalty relief applications, we request an opportunity to further discuss these matters with the Department at your earliest convenience. This will give impacted companies an opportunity to seek additional clarity about guidance and next steps.

You understand better than most the economic benefits of coal production on federal lands. Unfortunately, coal producers and the periphery industries they support – totaling as many as 404,000 direct and indirect family-wage jobs – face an existential threat that extends beyond the existing global pandemic. This essential industry needs royalty relief to ensure America's economic and energy security are maintained into the future.

NMA is committed to continuing to partner with you as we work together to recover from this pandemic. Thank you for your recognition of our industry and its contributions to the economy and wellbeing of our nation. Please feel free to contact me at rnolan@nma.org or our general counsel, Katie Sweeney, at ksweeney@nma.org.

Sincerely,

A handwritten signature in black ink, appearing to be "Rich Nolan", written in a cursive style.

Rich Nolan
