

1           MR. WILLIAMS: Your Honor, I am sorry, this  
2 is one of the few exhibits that I have an objection  
3 to.

4           THE COURT: Okay. Overruled.

5           MR. IGNATOWSKI: Mr. I.H. Weaver of  
6 Raybestos-Manhattan who serves as chairman of the  
7 Friction Materials Standards Institute Asbestos Study  
8 Committee addressed the annual membership of the  
9 meeting of the institute.

10           Mr. Weaver's address was delivered in Vail,  
11 Colorado on Wednesday morning, June 27, 1973.

12           I am glad to be able to be here anyway to  
13 attempt to fulfill my responsibility in reporting to  
14 you as your Asbestos Study Committee chairman.

15           Rather than present a detailed statement  
16 covering committee activities for the year, I should  
17 like to use my time to review some of the more  
18 controversial and confused elements of the federal  
19 asbestos regulations, and give recommendations as to  
20 what I think the stance of the friction materials  
21 industry should be in regard to them.
