Mr. Andy Calovini
Safety Coordinator
BASF Canada Inc.
345 Caringview Drive
Toronto, Ontario M9W 6N9

Dear Andy:

The following is a response to your request for information regarding Vista ALFOL 10 Alcohol for WHMIS compliance.

Based on our understanding of the regulations and classifications ALFOL 10 Alcohol may be a Class D, Division 2, Subdivision B material. This is based on its potential skin and eye irritation. Our toxicological data was not generated by using the specified OECD Test Guidelines, and I am not sure how those compare to protocols used by us in testing this product. There is also some data on 1-decanol in the scientific literature. 1-Decanol is on the ingredient disclosure list.

I have also faxed the current MSDS for this product. The animal data is found on Page 2 in Section 5.

Please contact me at 713-588-3445 or by fax at 713-588-3456 with any further questions on this product.

Sincerely,

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager
