A I have not been certified by the Industrial Hygiene Board, that is correct.

Q Okay. I think you were also testifying about some of the work that you did while you were working at the Cincinnati EPA office; do I have that right?

A That is correct.

Q You said that you worked on some toxicology projects concerning asbestos; is that right?

A That is correct.

Q Could you tell the jury what toxicology is?

A This would be the study of, I guess, the toxicity of asbestos.

We were involved in a number of studies dealing with either animals ingesting asbestos, or cells that were exposed to asbestos to learn more about the -- how the asbestos worked with the various animals or cells.

Q When approximately did you do that work?

A It would have been before 1985.

Q So either during that work, or at any other
