Dear Dr. Kehoe:

Many thanks for the comments contained
in your letter of June 15th.

I was disturbed about Professor Hanzlik's
article mainly because I recently learned that Stanford
University was planning to establish an Industrial Hygiene
Institute to serve the entire Pacific Coast on some of
its industrial problems. If the Institute were to pub-
lish articles of which the Hanzlik paper is an example,
I would be inclined, and I think you would also, to con-
sider the work of the Institute of dubious scientific
value.

With kindest regards,

Sincerely yours,

Secretary.
