Re: Michigan Immune Dysregulation Cases

Dear Jim:

A Toxic Chemicals Litigation Reporter article, entitled, "Chemlawn Hit With \$1 Million MI Jury Verdict for Dousing Mail Carrier" is enclosed.

Plaintiff, a mail carrier, was soaked with a Chemlawn product containing dursban insecticide, manufactured by the DOW Chemical Company. Apparently, Chemlawn initially concealed the presence of dursban in its product. Moreover, Chemlawn conceded liability at trial. Dow was not a defendant.

Perhaps the most interesting aspect of this case is that Dr. Paula Davey testified as one of plaintiff's expert witnesses. We will attempt to obtain additional information concerning her testimony and advise you of any interesting developments.

Please do not hesitate to call if you have any questions.

Best regards.

Very truly yours,

WISE & MARSAC

Darrell M. Grams
