DOCUMENT DESCRIPTION: Letter to Mr. Waddell, Turner Brothers, from Einar Juel & Co.

EINAR JUEL & CO.

Mr. J. Waddell,
Turner Brothers Asbestos Co. Ltd.,
Rochdale,
E n g l a n d.

Dear Mr. Waddell,

I thank you for your kind letter of the 5th April, 1968. I was very glad that I had an opportunity of meeting you in Copenhagen and discussing with you various important matters.

I think by now you will have received my written reports on the conversations which I had with Mr. Homann Pedersen and with Mr. Johnsen just prior to your visit, and no doubt also the report enclosing and dealing with the "Addendum" which Mr. Homann Pedersen has written and sent to the Shipbuilders Association in continuation of his first "Memorandum".

I was very interested to learn from you that a Mr. Malmstedt of the Materials Testing Bureau of the Danish Government in Copenhagen has been doing a study on "Asbestosis" for the World Health Organisation with special reference to the use of incombustible ships' building boards. I shall certainly make contact with Mr. Malmstedt as soon as possible to try and find out what are his activities.

With kindest regards,

Yours sincerely,
