WASHINGTON

Memorandum to Mr. A. McC. Ashley,
Div. of Purchases, Dept. of Agriculture.

Our Paint Committee is having difficulty in securing comments from manufacturers on proposed new or revised Federal Specifications.

It is believed that the manufacturers who actually bid on Government requirements are interested, and would be glad to comment on the specifications under which they bid or have a contract.

It will help us in this work if you could give me a list of the names and addresses of present contractors for paint, paint materials, paint oils, varnish, driers, etc., also the names and addresses of the contractors for these materials for the past two or three years.

There may also be some unsuccessful bidders who are known to be reliable, who are likewise interested enough in the Government business to take the trouble to comment on our specifications.

M. F. Harriman, Vice-Chairman,
Federal Specifications Board.
