Betreff: AW: Webex-Meeting-Einladung: meeting firefighting foams and Integration of the universal PFAS restriction

Dear all,

for tomorrow's meeting I identified following points

- Top down approach/timelines/level of detail
- Grouping
- Risk assessment

As indicated today I propose to postpone the discussion on the assessment of alternatives and how to align this between ENV and HH as I currently do not see this as high priority.

I hope you are ok with this.

Best regards
