Mr. R. Mundt
Goulds Pumps, Inc.
240 Fall Street
Seneca Falls, NY 13148

Dear Mr. Mundt:

We are very pleased to hear from our Sales Representative, Mr. William McDowell, that you are interested in Garlock's sheet goods.

At the present time and in the future Garlock plans to produce Blue Compressed Asbestos Sheet (Style 7705). We will keep you informed when and if we decide different.

With your request through Mr. McDowell our Style 900 and Style 7005 will be tested to see if it meets F.D.A. approval for Food Service. This testing will take approximately two (2) to three (3) weeks.

I will keep you informed of our results and hope to have your firm as a Garlock customer.

Mr. McDowell and myself will be available for further information or assistance.

Sincerely,

GARLOCK INC.
