Thanks Kaitlin, I will be around those days and have set aside the time. 11:30 on the 9<sup>th</sup> would be better but I can do 11. I am out of the office next week but this gives extra time to touch base before the call.

Hi Jennifer,

I'd be happy to help facilitate intros and/or a pre-brief for you with the team. Unfortunately I learned today that Columbia had a conflict with the 7/30 date so the call is now tentatively scheduled for either 8/7 at 2pm or 8/9 at 11am, but it will be confirmed early next week. Just wanted to first flag that in case the new date/time doesn't work for you.

I'll email you separately with a couple of the team POCs so you can reach out to them directly to coordinate and follow-up as needed.

Thank you,  
Kaitlin

Kaitlin Keller, Special Assistant  
Office of Chemical Safety and Pollution Prevention  
U.S. Environmental Protection Agency  
(202) 564-7098

Jennifer,  
Many many thanks. I believe the call with Columbia University is on the 30<sup>th</sup> at 1pm.  
I'm looping in Kaitlin Keller our special assistant for pesticides. She can facilitate introductions with our team and perhaps a pre-call with our science leads if that would be helpful to you.

Regards,  
Nancy

**Subject:** RE: Disclosure Review

Hi Nancy, I've spoken to Susan and given our schedules it would be easier for me to be on the call. If an additional call is needed we might involve other staff. Let me know the particulars about the call. I will be out of the office next week but back on the 30<sup>th</sup>.//Jennifer

Hi Nancy,

Nice to hear from you.

I've been out of the office for two weeks on leave. I'll be in tomorrow and will talk to Susan about this.

We will be back to you as soon as we can.

Jennifer

Thanks for the intro (re-intro) Margo!

Jennifer and Susan-- we are looking for someone that can help us with a call we have on July 30th. We have a paper from a University and we would like to encourage release of the raw data but the University is worried about release. We'd like someone to join the call that can provide them with some suggestions regarding how this can be done. Its an epidemiology paper looking at pesticide exposures and health effects.

Many thanks!

Nancy

Jennifer and Susan- Would NCHS be able to provide EPA with technical assistance in working with a university to deidentify their data or provide a mechanism for access (eg FSRDC). Jennifer, I am pretty sure that you met Nancy when she worked at OMB. I know that NCHS already provided an overview of principles and practices to EPA's office of research and development, but this is a much more focused request. Thanks in advance.
