DOC#: GED009

DOCUMENT DESCRIPTION: Memo - Further Money for Dirty Money for Pipe Laggers

GENERAL DYNAMICS CORPORATION
ELECTRIC BOAT DIVISION
GROTON, CONNECTICUT

MEMORANDUM

TO: J. McBreen

DATE: March 30, 1960

FROM: H. M. Dempsey

FILE NO.:

SUBJECT: Further Explanation of Dirty Money for Pipe Laggers

REFERENCE: Memo to F. Horan from H.M.Dempsey, dated September 3, 1958

This will confirm an understanding with the Metal Trades Council that in lieu of additional cents per hour for pipe laggers while working on Amesite and ground blown glass, an agreement had been reached whereby an employee in the pipe lagging department doing pipe lagging work and after having worked the majority of the days in the week he would be paid a maximum of two days "Dirty Money", which is an additional $4.00 per week for handling this type of work.

The majority of the days in the week is figured and based on 5 days per week which means you must work 3 days on this type of work in order to be eligible for "Dirty Money". It also means that you are eligible for "Dirty Money" after working any 3 days in a calendar week Sunday through Saturday. This arrangement has been accepted and confirmed by the Metal Trades Council and was effective September 1, 1958.
