

WORKMEN'S COMPENSATION
THE INDUSTRIAL COMMISSION OF OHIO
MEDICAL SECTION
COLUMBUS

IN RE CLAIM NO. _____

November 6th, 1942.

Dr. R. A. Kehoe,
University of Cincinnati,
College of Medicine,
Cincinnati, Ohio.

Dear Doctor Kehoe: -

Since the Commission has passed the Resolution requiring quantitative lead urine determinations on all cases of acute lead poisoning which are filed with us, we have been receiving numerous requests asking for the laboratory procedure of choice for making such determinations.

It would be a great help to us if you would be willing to furnish us with a copy (detailed) of the laboratory procedure which you use in your laboratories. In this way, we hope to be able to have some uniformity in the laboratory procedures throughout the state.

Whenever such requests are made to us, we will furnish a copy of your laboratory procedure as the Kehoe Method for quantitative lead urine determinations, if you so wish.

We are looking forward with great appreciation for your cooperation in this matter.

Very truly yours,

R. M. Andre', M. D.,
Supervisor, Medical Section.

Ben Arnoff, MD.
