

1 called the finishing area of the plant.

2 The wet end, the process end was in one
3 section of the building, there was a wall between it,
4 and then the next section was the finishing area.

5 Q Can you tell the jury how many cuts were
6 made per day in that cutting area of the plant of the
7 Kaylo product?

8 A Well, we cut somewhere around 10,000 pieces
9 during a 24-hour period.

10 Q You had three shifts a day?

11 A We did.

12 Q Was that a dusty area?

13 A Certain areas that might have been more
14 dustier than others.

15 Q People working there, were they required to
16 wear respirators?

17 A Yes, there were several positions throughout
18 the manufacturing plant that respirators were
19 required.

20 Q Did you go to that area yourself?

21 A Off and on, yes.
