April 6, 1970

Mr. Donald L. McClain
Manager of Engineering
Westinghouse Electric Corp.
P. O. Box 341
Bloomington, Indiana

Dear Don:

Thank you very much for your March 31st letter and the splendid description of your research and development capacitor life test equipment.

Dr. Manch has already proceeded to order various pieces of equipment but I can assure you that the information you have kindly given us is very helpful guidance indeed.

Hope to see you in the not distant future, as we seek to give you more in-depth information about the PCB pollution problem and our need to work together on this.

Best regards,

P. O. Benigsen
Marketing Manager
Dielectric Fluids
