New York City

Gentlemen:

Beg to refer you to our letter of November 3rd in connection with possible trouble we might experience with Mr. [REDACTED] former employe of one of our dealers, Mr. Butler being ill and seemingly wanting to blame his trouble on the handling of Ethyl Gasoline.

We have heard nothing further from our Savannah people on this case, but in the meantime of course are anxious to have your advice as to what, if any, action to take.

Very truly yours,

W. G. VIOLETTE
