

Ferri-Floc WAY IS A BETTER WAY!

You Can Expect
These Advantages With
Ferri-Floc-

- | | |
|---------------------------|---------------------------------|
| 1. Rapid Floc Formation | 5. Bacterial removal |
| 2. Taste and odor control | 6. Manganese and Silica removal |
| 3. Color removal | 7. Turbidity removal |
| 4. Ease of operation | 8. Economy |

Ferri-Floc has the ability to coagulate waters and wastes over wide pH ranges and will provide excellent flocculation in softening systems.

SULPHUR-DIOXIDE
SO₂

SULPHUR-DIOXIDE is effectively used for dechlorination in water treatment and to remove objectionable odors remaining after purification.

COPPER SULPHATE will control about 90% of the micro-organisms normally encountered in water treatment plants more economically than any other chemical.

Cairn, fluid cooler div. of heat transfer sales dept. Baldwin-Lima-Hamilton Corp: F. H. Schoonmaker, St. Louis District Office for the Eldystone Division.

NATIONAL MEANS Dependable Low Cost Ash Removal

A survey of your plant by NATIONAL engineer may reveal that ash removal costs are eating your profit margin. A survey will cost you nothing... may very well boost your earnings.

NATIONAL PNEUMATIC STEAM ASH REMOVAL SYSTEMS

add to the efficiency of your plant in two ways —

1. Exceptionally easy one-man operation means minimum labor cost.
2. Rugged NATIONAL construction means maximum life for parts... surprisingly low maintenance costs.

It will pay you to investigate NATIONAL's reputation for delivering satisfaction... its complete and effective service policy. Ask us for full information.

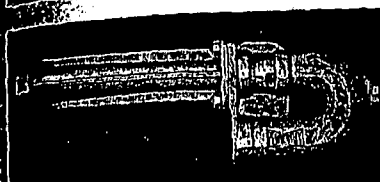

NATIONAL CONVEYORS COMPANY, INC.

30 CHURCH ST., NEW YORK 7, N.Y.

Manufacturers of the National Chip-Vapor System for Metal Turnings—Furnace Doors—Feeders—Ash Gates and Related Equipment.

PENBERTHY

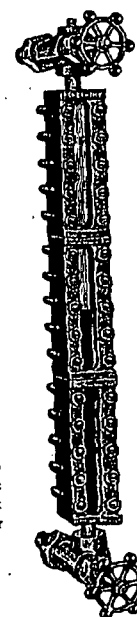

JET PUMPS—Penberthy can help you put the simple, economical principles of the jet pump to work wherever it's necessary to transfer or mix any liquid which will flow through a pipe. We make a complete line and have years of engineering experience upon which you can depend.

AUTOMATIC INJECTORS

Penberthy injectors are the accepted method of assuring a dependable supply of feed water, at lowest cost, to oil field and other firebox and portable boilers. They are being used increasingly for standby service on many large boilers. Easily installed, they require little or no attention.

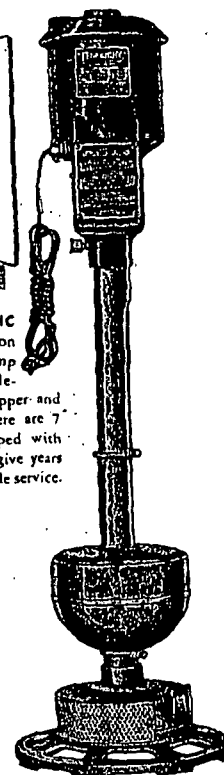

AUTOMATIC CELLAR DRAINERS • WATER HEATERS EJECTORS • HYDRAULIC EJECTORS • REDUCTORS EXHAUSTERS • CYCLING JET PUMPS • SYPHONS

are among the other products by Penberthy which can serve you in your operation. Why not write for literature detailing specifications and advantages. Ask, too, about the engineering service which Penberthy is providing for many prominent concerns in your industry.

LIQUID LEVEL GAGES—Penberthy makes a complete line of gages and valves for every type of application. 70 years of engineering experience is on hand to accommodate your particular requirements. You can always be assured of complete cooperation and reliable product service for any pressure... in any length.

Established 1886
**PENBERTHY
INJECTOR COMPANY**
Division of the Buffalo-Bryson Corporation
12425 Malden Avenue, Detroit 3, Michigan

**AUTOMATIC ELECTRIC
SUMP PUMPS**—Corrosion resistant Penberthy sump pumps are correctly designed and made of copper and bronze throughout. There are 7 sizes, 3 models equipped with trouble-free features to give years of economical, dependable service.
