J. A. Glass
G. W. Daues, Chairman

I. Plantwide Safety Program

LP&S reviewed their final preparations for the "Countdown for Safety Program" to be "kicked off" at the January PMSB.

A similar program for contractors was discussed. *(The PMSB approved the principle of having such a program. Capital Projects (Crow) will work out the details.)*

II. Supervisor Training Program

Due to the press of work associated with recent incidents, LP&S asked to delay their review of this program until February.

III. P-Bulletin Update

A review of progress on updating P-Bulletins will be made at the PMSB in January. *(The status report was distributed with assignments at the PMSB meeting)*
