[Ameduri-2023-Fluoropolymers as Unique and Irreplaceable Materials-Challenges and Future Trends.pdf](#)

Dear All,
We would like to share with you a recently published article, 'Fluoropolymers as Unique and Irreplaceable Materials: Challenges and Future Trends in These Specific Per or Poly-Fluoroalkyl Substances' by Dr. Bruno Ameduri. This article covers information on the history, PBT or PMT issues, different categories of PFASs including the lifecycle assessment of Fluoropolymers.
Thank you.

Kind regards,

We are committed to manufacture fluoropolymers without the use of fluoro-surfactants.
