Monc-Kote Reformulation

As a result of this morning's meeting with K Harrison, R W Sterrett, V H Dodson, K R Ganker, T Egan and myself, the following decisions were made:

1. Regarding use of an organic fiber such as Cellufloc, we will search the W R Grace Company to locate our best talent in this area and assign him the job of locating acceptable lower cost alternates.

2. In the area of replacement of asbestos with equal or similar volumes of lightweight fillers, more work is requested
