

1 Q I don't mean to suggest that anyone who has
2 cancer has it easy, but some people have it worse than
3 others, don't they, Doctor, depending on the site of
4 the cancer; don't they?

5 A It is all relative. What you view as being
6 worse could be not worse to me and it is all
7 relative.

8 Q Let's move ahead to August.
9 Did you review this record, August 3rd,
10 1981?

11 A Yes.

12 Q Indicates the patient is doing very well and
13 feels quite good and he is tapped.

14 Does this indicate that he is feeling pain
15 to you in August of '91 -- excuse me, of '81?

16 A No. Well --

17 Q Okay.

18 A The only thing that suggests to me here, has
19 been tapped twice for up to 8 liters, the last was 19
20 days ago and now he is re-accumulating, feeling
21 pressure and has inability to eat.
