CUE, W.A.

7th December, 1961.

Dear Sir,

We acknowledge receipt of your letter of 6th December, regarding the high dust count in the Mill.

We do not agree that the dust collection plant is overloaded and feel that when we make the modifications listed in your report, together with an overall tightening up in supervision throughout the plant, a big improvement will be seen.

As discussed with you yesterday, I have referred this matter to our General Superintendent in Perth and he will discuss the matter with Messrs. Brisbane and Boyland.

We realize the uncertainty of mail deliveries to Cue, and we have taken the above action to ensure that our appeal is lodged in accordance with Section 22 of the Mines Regulation Act.

We would like to record our appreciation of your assistance and guidance in the above matter.

Yours faithfully,

MANAGER.
