and Refuse to Digest It, Make the Head Heavy, and the Nerves Weak, Need Stuart's Dyspepsia Tablets.

There is a cure for dyspepsia. Sufferers who have tried noxious nostrums will probably be skeptical, but skepticism vanishes when Stuart's Dyspepsia Tablets are tried. Whether the trouble is dyspepsia of long standing, or merely a simple case of indigestion, relief is prompt and pronounced. The less the trouble the fewer tablets need be taken.

Heaviness after eating, sour stomach, as indicated by belching, fatigue with slight exertion, or with no exertion at all, disturbed sleep, nervousness, constipation, depression, "blues," these things can commonly be set down as symptoms of dyspepsia. And dyspepsia is merely indigestion in an aggravated form.

By promoting perfect digestion, Stuart's Dyspepsia Tablets produces strong nerves, restful, refreshing sleep, pure blood and good, sound, healthy flesh. They make the skin clear, the eyes bright, the mind cheerful.

Stuart's Dyspepsia Tablets are a medicine and more than a medicine. They digest the food and make it easy of assimilation, and they relieve the inflamed, diseased condition of the membranous linings and the glands of the stomach and bowels. They help the digestive organs over the hard places, and put them into a healthy, active condition. They effect a quick and permanent cure. You don't have to continue taking them forever, still it is well to have a box handy and take one at the first return of the trouble.

Perfectly well people are made sick by eating too much, or unwholesome food, but not if they take a tablet after eating. Treatment with Stuart's Dyspepsia Tablets does not necessitate dieting or any change of habits. They digest the proper food and act upon the other kind in such a way as to
