RE: Fate & Effects Data
Nalkylene 500, 550, 600

Dear Gerry:

We would like to obtain the following information:

1. 20-Day Biochemical Oxygen Demand (BOD20)
2. Chemical Oxygen Demand (COD)
3. Acute Toxicity, Fathead Minnows/Daphnia
4. Bacterial Toxicity (Bio-Mass Toxicity)
5. Estimated Octanol/Water Partition Coefficient

In addition to the above we would like to obtain any additional information Conoco might have on Fate and Effects on these products.

Very truly yours,

UNION CARBIDE CORPORATION
