AP-3 - Medical and safety aspects

July 30, 1956

In formal reply to your letter to me on this subject on July 17, I need but note recognition of the fact that you and others received a copy of Dr. Kehoe's letter to me on the subject which he wrote July 25. I take it, therefore, that you are aware that Dr. Kehoe has said all that need be and can be said on the subject at this time.

Roy C. A. Bock, M.D.
Chief of plant Physicians
