Subject: RE: Gasoline fumes

Dear Ed

As you surely know, I already called hotline more than 10 times and initiated 10 cases which did not help at all.

I would like to reiterate too. This is not a minor nuisance. It is a major, life threatening problem.

Per you advice, I am going to make another 20 calls to the hotline and file another 20 cases and if that does not help I am going to contact every radio, TV and internet media outlet around the country and share my full story. I will make sure to mention every name of the person who was willing to listen and who made real effort to resolve this "stinky" situation.

I realize that DEP departments are not ready to help us and that is exactly why I am looking for a person in charge who is not afraid to do the right thing and save lives. And if that person is a president of the united states, so be it.

If you believe that you know such person or have a concrete solution please do not hesitate to let me know before I reach the point of no return.

Val

P.S.

As it turns out, your issue has been to all the groups here at DEP I though might be able to help you, and as you know there really isn't much they've been able to do for you. All I can do is reiterate that you should keep calling the Hotline if you feel there's a violation.

Thank you for this, you're correct this problem is not within my particular purview here at DEP, but I will share this with some colleagues and see if they can provide any help.

Mark or I will get back to you in a few days to update you.

Dear Ed,

Before we talk on the phone could you please learn a little bit about the problem on my website: <http://princetoncs.com/262>

I've talk to a lot of nice but unhelpful people about this disaster and I would rather not waste you time on the phone if all you would like to tell me that there is nothing can be done to save

my family.

Val

I called 609-630-0001, but Iâ€™m not sure I have the correct number. Your report of fumes was forwarded to my office. Iâ€™m going to need some more information, so could you please call me or Mark Herzberg at Ex. 6 in the morning. Â

Thank you

Ed Putnam

Hello,

I sincerely hope you are having a wonderful relaxing weekend together with your family right now. And I am pretty sure I'd like to have something like that, one day.

Do you know why it is just a dream?

Because a gasoline delivery truck shows up near our house on a regular basis and destroys our life. Just like today at 5:20pm on Sunday we had to abandon our house.

The truck driver recommended that we run away every time we see his vehicle. And that is exactly what we have been doing for quite a while.

Without an exaggeration, it is a huge problem for our family. See the website. <http://princetoncs.com/262>

Are you willing to become a part of the solution?

Val Rafalsky
