Dear Dr. Lieff:

As I recall the instructions of the June 17, 1966 general meeting, we were to assemble any comments on the form of reply to inquiries concerning job site health hazard problems of sprayed asbestos fiber and compose a suitable one page form of statement of the Association's position on the matter.

Having received no comments, I enclose for your consideration a draft of such a statement which I believe could be run off on a single page.

I would suggest that this preliminary draft with your revisions and comments be circulated directly to the Technical Committee and Messrs. Verhalen and Levine for their consideration.

Sincerely yours,

John Boyer
