

Ameron
Corrosion Resistant
Piping Division

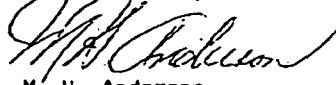

September 12, 1983

Mr. Lee King
Tourangeau Corporation
11040 S. W. Allen Blvd.
Beaverton, Oregon 97005

Dear Mr. King:

In response to your question regarding asbestos, we want to assure you that Ameron no longer uses asbestos fiber in the manufacture of its Bondstrand® product line. We discontinued this practice in 1979 when we developed alternative reinforcing systems with equal or better corrosion resistance.

Regards,

M. H. Anderson
Manager
