VISTA

TO: D. A. Kuhn
FROM: T. G. Grumbles
DATE: January 30, 1987
SUBJECT: PROGRESS REPORT

1. Continue to participate in the APA negotiating for the Mansfield BP site. Information obtained on Friday indicates a potential non-compliance situation regarding personnel exposure to lead and negotiations regarding projects necessary to assure compliance resulted.
2. A meeting was held with Engineering and Manufacturing to discuss the development of specific guidelines that consider environmental regulatory requirements and potential environmental impact of the equipment for engineering standards and projects.
3. The response to EPA's request for additional data and study commitments on Vista's VMC-100 pesticide registration application was submitted to the agency.
4. Assisted S&T in responding to Chrysler and our acid distributor regarding an acid release and the delivery logistical problems at the Chrysler location in Newark, Delaware.
