

- Birmingham, D. J.
Investigation of occupational dermatoses in citrus fruit canning industry, *57
- Bishop, R. C.
Treatment of lead poisoning with sodium citrate: report of four cases, *267
- Blood: See also Erythrocytes; Hemoglobin and Hemoglobin Compounds
cells: red, investigations in chronic action of benzene, 109
cells: white, counts of sprayers using quick-drying paints: study of health of workers using benzene solvents in modern factory, 429
changes: do alterations in fundus of eyes accompany benzol poisoning, 533
changes: BAL and lead poisoning: effect on, 109
changes: in luminizers using radioactive material, 441
changes: in silicosis silicotuberculosis, 418
chromium: determination of small amounts in human tissue, urine and, 327
colorimetric microdetermination of small amounts of silicic acid in, and its use in lung clinic, 331
of cyclotron workers: experimental confirmation of previously reported unusual finding in, 413
diseases: See Leukemia
hemoglobin: levels of workers in Poland, 1948, 101
industrial diseases of: and blood-forming organs, 528
peripheral: and myelogram in experimental trinitrotoluene poisoning, 108
phenol in: and urine in experimental intoxication with trinitrotoluene, 108
phenols: and urinary conjugated sulfates in experimental benzene poisoning treated with vitamin C, 108
porphyrin and porphyrin compounds: protoporphyrin in blood cells, 536
saturation curve: of benzene in, 101
sedimentation: erythrocyte rate in stages of silicosis, 429
trichlorethylene in: estimation of, 212
- Blood Transfusions
bleeding and: in percutaneous poisoning with aniline, 534
- Bone Marrow
myelogram: peripheral blood and, in experimental trinitrotoluene poisoning, 108
- Bones
lesions: undetected, in workers under raised atmospheric pressure, 101
- BOOK REVIEWS:
Accident Handbook: Children's Hospital, Boston, 226
Entwicklung der Gesundheitsfürsorge: L. Teleky, 444
Guide to Diagnosis of Occupational Diseases: Industrial Health Division, Department National Health and Welfare, Ottawa, and Division of Industrial and Controller of Stationery, Ottawa, 338
Industrial Lung Diseases of Iron and Steel Foundry Workers: A. I. G. McLaughlin and others, 443
Industrial Toxicology: L. T. Fairhall, 338
Modern Air Conditioning, Heating and Ventilating: W. H. Carrier, R. E. Cherne and W. A. Grant, 442
Pneumoconiosis: Beryllium, Bauxite Fumes, Compensation: A. J. Vorwald, 444
Present Status of Silicosis in Italy: E. C. Vigliani, 648
Social Consequences of Pneumoconiosis Among Coalminers in South Wales: P. Hugh-Jones and C. M. Fletcher, 442
Syllabus of Laboratory Examinations in Clinical Diagnosis: T. H. Ham, 226
- Bowman, K. M.
Viewpoint of psychiatrist (in solving health hazards), *181
- Brackett, F. S.
Investigation of small, airborne, charged particles by electrical method, *505
- Brain: See also Nervous System; etc.
electroencephalograph: epilepsy, atypical, in industrial medicine: its detection by, 521
encephalopathy: lead, in cooperage, 415
- Brazil
industrial hygiene problems in, 409
- Brieger, H.
Toxic effects of exposure to vapors of aliphatic amines, *287
- Brinton, H. P.
Health and air pollution, *399
- Brown, J. K.
Lightweight power supply for electrostatic precipitator, *198
- Brucellosis
occupational: in Yugoslavia, contribution, 530
- Cadmium
alkaline accumulators: health hazards in manufacture of, with special reference to chronic poisoning: clinical and experimental study, 423
poisoning [Cotter & Cotter], *495
poisoning: by newer metals, 535
- Campbell, P. C., Jr.
Investigation of occupational dermatoses in citrus fruit canning industry, *57
- Cancer: See also under names of organs and regions, as Lungs, and under names of toxic compounds, as Arsenic
detected in surveys, 412
detection in industry: pilot program [Berg], *279
environmental: and petroleum, 441
occupational: in chromate plant: environmental appraisal, 523
- Carbon Compounds
calcium carbonate crystals: deposits in conjunctiva following carbide corrosion, 104
- Carbon Disulfide
poisoning: toxicological researches on, 107
poisoning: vascular disturbances of central nervous system in, 421
- Carbon Monoxide
poisoning: chronic, study in occupational medicine, 110
poisoning: danger in conversion of hydrocarbons and manufacture of metal carbonyls, 335
- Carbon Tetrachloride
nephrosis due to: congestive heart failure of renal origin: pathogenesis and treatment in four cases, 212
poisoning: fatal, pathology: with special reference to histogenesis of hepatic renal lesions, 530
poisoning: by fire extinguishers, 221
poisoning: in man: mechanisms of renal failure and recovery, 532
- Cardiovascular Diseases: See Heart
- Carpenter, C. P.
Toxicological study of some polypropylene (polyoxypropylene) glycols, *448
- Cass, J. W., Jr.
Spontaneous remission of chronic beryllium poisoning from fluorescent lamp manufacturing: report of case, *569
- Casting Industry
shale generator tar: sanitary and hygienic working conditions in use of, for binder in, 433
- Castor Oil Bean
allergen: identification in green coffee, 420
allergic reactions: in persons working with, 331
industrial hazard: contaminant of green coffee dust and used burlap bags, 419
- Cataracts
neutron, 412
