November 8, 1939.

Mr. Manfred Bowditch, Director,  
Division of Occupational Hygiene,  
The Commonwealth of Massachusetts,  
23 Joy Street,  
Boston, Massachusetts.

Dear Manfred:

A thousand thanks for the paper  
by Dr. George and Dr. Leonard on the asbestos  
situation. It is a scholarly work and I have  
read it with a lot of interest.

I am still aware of the fact that  
I ought to be getting together with you but,  
on the otherhand, the problems incident to  
the present upset conditions of the world  
seem to be multiplying rather than lessening,  
and I am pretty nearly frantic.

Sincerely yours,

BD:EE
