

AMERICAN SOCIETY OF

HEATING, REFRIGERATING AND AIR-CONDITIONING ENGINEERS

234 Fifth Avenue

New York 1, New York

Several volumes of the ASRE AIR CONDITIONING REFRIGERATING DATA BOOK are currently available.

One is REFRIGERATION APPLICATIONS volume—1959, with sections covering: Refrigerated Food and Beverage Processes, Frozen Food Processing, Refrigerated Warehouse Practice, Refrigerated and Frozen Food Distribution, Low Temperature Applications, Industrial Applications of Refrigeration, and Refrigeration Piping Systems. New, 8½- by 11-in. page size, cloth bound, over 700 pages text plus Manufacturers' and Product Index. Price, \$12.00 in USA, \$13.00 elsewhere.

Another available DATA BOOK is the DESIGN volume—1957-1958, which comprehensively presents data on the design and application of refrigerating and air-conditioning systems, apparatus, units, and components. Includes classified Equipment Directory. Contains 39 Chapters. Price, \$10.00 in USA, \$10.50 elsewhere.

Also limited supply of the APPLICATIONS volume—AIR CONDITIONING AND REFRIGERATION, 1956-1957. Paper bound only. Price, \$5.00 in USA, \$5.50 elsewhere.

All volumes prepared by specialists. Postpaid, remittance in U.S. dollars required with order. Descriptive literature on request.

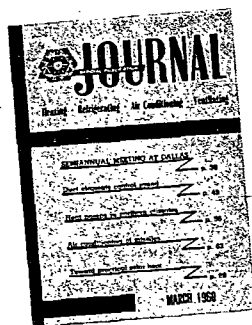

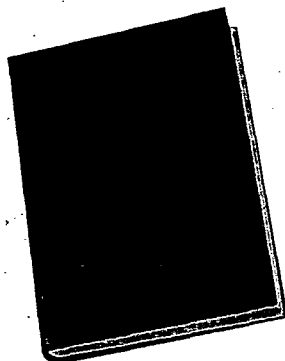

Official publication of the AMERICAN SOCIETY OF HEATING, REFRIGERATING AND AIR-CONDITIONING ENGINEERS, the monthly ASHRAE JOURNAL is an authoritative periodical on research, design, development, engineering and news in the fields covered.

Successor to REFRIGERATING ENGINEERING INCLUDING AIR CONDITIONING, and incorporating the ASHAE JOURNAL. As an outcome of the merger of The American Society of Heating and Air-Conditioning Engineers and the American Society of Refrigerating Engineers to form the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc., the monthly publications of these two organizations have been combined.

ASHRAE JOURNAL is larger in content and essential coverages than predecessor publications. It has a circulation of approximately 24,000.

The ASHRAE JOURNAL is complete, timely in its emphasis upon facts and their significance and is edited with the basic idea that you can not afford to be without it. The JOURNAL will help you grow with and within your profession.

Published monthly. Subscription \$5.00 for one year; \$8.00 for two years, \$10.00 for three years; in the U.S. and Canada. \$2.00 a year additional in other countries. Send remittance with your order. Sample copies on request.

ASHRAE STANDARDS

Following list covers Society Standards available. All Society Standards are formulated and approved under the supervision of the Standards Committee. All are under constant review and revision. Availability of new Standards is announced by notice in ASHRAE JOURNAL.

(Complete set of all Standards listed, bound in attractive paper cover \$10.00)

- | | | | |
|--------|--|---------|---|
| #12-58 | REFRIGERATION TERMS AND DEFINITIONS*: (ASA B53-1958)..... (33 pp).... \$1.25 | #23-59 | COMPRESSORS, REFRIGERANT, METHODS OF TESTING FOR RATING:..... (12 pp).... \$1.00 |
| #13-58 | HOME FREEZERS, METHODS OF RATING AND TESTING*: Covers self-contained freezers (ASA B38.3-1955)..... (6 pp).... 75c | #24-57 | LIQUID COOLERS, METHODS OF RATING AND TESTING:..... (6 pp).... 75c |
| | HOUSEHOLD REFRIGERATORS, METHOD OF COMPUTING FOOD STORAGE VOLUME AND SHELF AREA OF AUTOMATIC*: (ASA B38.1-1955)..... 35c | #25-56 | AIR COOLERS FOR REFRIGERATION, METHODS OF RATING: Includes testing of forced circulation or natural convection air coolers for refrigeration, and simplified testing for operating conditions where frost would normally form on coil..... (12 pp).... \$1.00 |
| | HOUSEHOLD ELECTRIC REFRIGERATORS (MECHANICALLY OPERATED) AMERICAN STANDARD TEST PROCEDURES*: (ASA B38.2-1956)..... 75c | #26-56 | MECHANICAL REFRIGERATION INSTALLATIONS ON SHIPBOARD, RECOMMENDED PRACTICE FOR*: Guide for design, construction, installation, operation, tests and inspection of equipment on merchant vessels. (ASA B59.1-1958)..... \$1.25 |
| #14-59 | CONDENSING UNITS, MECHANICAL, METHODS OF TESTING FOR RATING..... \$1.00 | #28-57 | CAPILLARY TUBES, METHODS OF TESTING: Covers air flow capacity test for tubes used for refrigerant metering..... 50c |
| #15-58 | SAFETY CODE FOR MECHANICAL REFRIGERATION*: Intended to insure safe design, construction, installation, operation, and inspection of systems using a fluid which is vaporized and normally liquefied in its cycle. Does not apply to water or air refrigerants nor to systems installed in transportation facilities. (ASA B9.1-1958)..... \$1.00 | #29-56 | ICE MAKERS, METHODS OF RATING AND TESTING: Covers automatic self-contained type only..... (6 pp).... 75c |
| #16-56 | AIR CONDITIONERS, METHODS OF RATING AND TESTING: Air conditioners which operate non-frosting when cooling and dehumidifying at standard rating conditions. (25 pp).... \$1.25 | #32-57 | BOTTLED BEVERAGE COOLERS, METHODS OF RATING AND TESTING: Self-contained mechanically-refrigerated coolers, vending and non-vending..... (6 pp).... 75c |
| #17-48 | EXPANSION VALVES, REFRIGERANT, METHODS OF RATING AND TESTING*: Thermo-static and constant pressure expansion valves passing volatile refrigerants. (ASA B60.1-1950)..... (10 pp).... \$1.00 | #33-58 | AIR-COOLING AND AIR-HEATING COILS, FORCED CIRCULATION, METHODS OF TESTING AND RATING: For cooling coils used under non-frosting conditions only..... \$1.00 |
| #18-56 | DRINKING WATER COOLERS, SELF-CONTAINED MECHANICALLY-REFRIGERATED, METHODS OF RATING AND TESTING: For standard and other conditions. Does not include production or field testing..... 75c | #34-57 | REFRIGERANTS, DESIGNATION OF: Numerically designates refrigerants for refrigeration services..... 75c |
| #20-41 | EVAPORATIVE CONDENSERS, METHODS OF RATING AND TESTING:..... (20 pp).... \$1.25 | #35A-56 | DESICCANTS FOR REFRIGERANT DRYING, METHODS OF TESTING: Desiccants only. For testing driers, see #35B-56..... 75c |
| #22-48 | WATER-COOLED REFRIGERANT CONDENSERS, METHODS OF TESTING AND RATING: Water-cooled industrial units..... 75c | #35B-56 | DRIERS, HIGH SIDE LIQUID-LINE, METHODS OF RATING AND TESTING: Applies only to driers for refrigeration systems using Refrigerant 12 or Refrigerant 22..... \$1.00 |
| | | #38-57 | COOLING TOWERS, MECHANICAL DRAFT, METHODS OF TESTING FOR RATING UNDER CONTROLLED CONDITIONS: For field tests see current ASME Power Test Code on Atmospheric Water Cooling Equipment..... 75c |

* Indicates that the Standard has been approved by the American Standards Association as an American Standard — and the ASA designation assigned to it is shown.
