Re: Claim No. O. D. 14570
[REDACTED]

Dr. Sidney McCurdy
Supervisor of Medical Section
The Industrial Commission of Ohio
Columbus, Ohio

Dear Doctor McCurdy:-

I am sending you herewith
three copies of the report of our study of [REDACTED]
[REDACTED] during a period of observation and in part
hospitalization as indicated by the report.

The case of this unfortunate man is a very difficult one and we have felt impelled to do everything which could be done to gain some further insight into the nature of his case, and to provide such treatment as might give him an opportunity for rehabilitation. I am not sure that the line of study and treatment which we have undertaken corresponds precisely to that authorized in your form letter of March 14th. Moreover I did not notice until subsequently that the dates of our treatment did not entirely coincide with the stipulation of the authorization. We have, however, done our best to do something for this man and through cooperative efforts with his physician have tried to instigate a course of treatment which we hope will result in improvement. I trust we have not gone too far beyond the measures authorized. If we have done so, you are quite at liberty to make such reduction in our fee bill, which is enclosed herewith, as may seem fair and proper, since our interest in the matter has been much more in the interest of obtaining adequate information and on giving such advice as we could, than to sticking to the letter of the authorization.

Very truly yours,

RAK:is
