

July 23, 1956

Mr. J. M. Campbell
Technical Director
Research Laboratories Division
General Motors Corporation
Box 188, N. End Station
Detroit 2, Michigan

Dear John:

In accordance with our last talk, I am sending you herewith a memorandum which, I hope, has stated our case directly and adequately. To it I attach certain articles which give supplementary information on our work.

It so happens that Dr. Horton will be at the Detroit Laboratories of Ethyl Corporation on July 31. If, for any reason you would like to talk with him on any aspect of this matter, he can be reached there by telephone, and he would probably find time to see you or any other person or persons with whom you wish him to talk.

I am off on a vacation shortly, but will be available after Labor Day.

Sincerely yours,

Robert A. Kehoe, M. D.
