exposure is.

Science has not yet been able to establish a level of exposure below which disease will not occur, because insufficient time has lapsed to permit epidemiological studies of occupational groups working under modern, well controlled conditions.

I am enclosing a copy of the work practice instructions for reducing asbestos dust during brake servicing.

This is included in the Raybestos passenger car catalog and is distributed along with other material to persons inquiring about brake servicing procedures. You will note that the word safe is avoided.

Again, signed by Mr. Marsh.

THE COURT CLERK: Is that in evidence?

THE COURT: It is in evidence.

(Whereupon, Plaintiffs' Exhibit Number Dartez 30 was received into evidence.)

MR. IGNATOWSKI: This is our Dartez Exhibit, Exhibit Number 32 dated March 31, 1978.
