*would be helpful if we had
copy of the test plan
as finally arranged.*

Please attend or send a representative to a safety review meeting for the Texas City Plant flare test on September 22, 1978 at 9:00 AM in Building 770, Room 312.

The detailed test plan is attached. The test will be conducted at Texas City and a plant pre-startup safety review will be held at the Texas City plant after the construction of the pilot unit has been finished.

If you have any questions, please call me at 5221.
