You don't often get email from etremblay@gop.com. [Learn why this is important](#)

CAUTION: This email originated from outside of the Department of Transportation (DOT). Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Hi Monica,

Below is the context on Keith prior to connecting you.

Thanks!
Emily

Subject: [External]Private Jet Proposal

Hey Emily,
First and foremost, we would like to express our sincere appreciation for the longstanding relationship between Exclusive Charter Services and the Republican National Committee. As a company with over 21 years of experience in the private aviation industry and a trusted partner of the RNC since 2013, we deeply value the opportunity to continue supporting your travel needs.

Following up on my previous correspondence, I would like to outline key points we believe are worth discussing regarding the jet charter sector and its impact on government-related travel. As a well-established company in this industry, we have witnessed the rise and fall of many operators, and we fully understand that safety, security, and transparency must always come first.

Key Discussion Points:

1. Establishing Standardization & Exclusive Partnership
We propose working exclusively with both the RNC and DNC to create a standardized system for government-related charter travel. Our goal is to become the primary and trusted provider for all charter requirements. By implementing a structured framework, we can ensure full transparency in transactions, operating with a fixed commission or transaction rate. Our company was founded on the principles of honesty and integrity—values that align with the priorities of the new administration.

Standardization would also prevent other charter companies from overcharging either administration, eliminate unauthorized side payments to external entities, and ensure taxpayer dollars are spent responsibly and efficiently.

2. Ensuring Compliance for Non-Chartered Flights

In instances where flights are donated or booked outside of our network, we can play a crucial role in verifying pilot credentials, insurance compliance, and overall flight safety requirements. This would ensure that all flights utilized by the administration meet the highest safety and regulatory standards.

3. Enhancing Security & Safety for Private Jet Travel

Given the nature of government-related movements, security is of paramount importance. Our office is fully equipped to provide comprehensive oversight on all private jet charter movements, ensuring that security protocols are met at every stage. From pre-flight screening to in-flight security coordination, we can serve as a centralized point of contact to mitigate risks and provide seamless travel support. This added layer of security would ensure that every flight meets the highest standards of operational integrity and discretion.

We look forward to discuss these points further (even if that means we need to come to DC) and explore how Exclusive Charter Services can serve as a long-term, trusted aviation partner for the RNC. Please let us know a convenient time to connect or the appropriate individual within your team with whom we should coordinate.

Thank you again for your time and consideration.

Thank you,
Keith Fetky
