Importance: High

Team;

Need a response to Russ and Patsy by noon, CDT, March 28, regarding your attendance - in person or via telecon. Also, do you plan to invite anyone else from your company; for example, Myron Harrison, XOM, and Phil Snyder, Shell will attend.

API, please arrange teleconferencing number and send out to the group.

A very important meeting of the BHRC will be held this Thursday, March 29 at API offices in DC. We are scheduled to start with breakfast at 8m, with the meeting starting at 8:30. Bob Greco, Harry Ng, and Brenda Hargett from API as well as Charlie Williams, chair of the Special Programs Committee, will be joining us for the morning session.

3 big agenda items:

- BHRC / API roles and responsibilities
- CinPathogen Contract and API / Sponsor contracts
- Approval of revised budget

More detail to follow.

I think that it is important for Stu to be there in his role on the Technical Committee. Jennifer Galvin, CP, cannot attend, and so Stu will be an important balance for other views. The technical committee reviewed Irons proposal from a science perspective, just as oversight and API reviewed it from a business perspective.

Patsy
