Dear [REDACTED] all

Please find attached DK comments to the Decision document and the 'One pager document'. Sorry for the late reply.

Kind regards  
[REDACTED]

Ämne: Decision document on scope/strategy for WebEx 18 May

Dear Jenny, [REDACTED] [REDACTED] [REDACTED] and others,

As follow up on our discussions on the scope and strategy for our broad restriction dossier, I have prepared a 'decision document'. I have discussed a draft version of this document with [REDACTED] and [REDACTED] last Monday. In my view it is important that some discussions are concluded because it gives clarity to all people involved in the Annex XV restriction work and it potentially could save considerable amount of time. I propose we will discuss this document (but not decide) during our next Monthly meeting.

This document is clearly linked to the work of [REDACTED] and [REDACTED] team in WP2. Attached you will find the one-pagers on the different PFAS subgroups (as promised by [REDACTED]). The document "PFAS subgroups" provides summary information on 8 chemically defined PFAS subgroups. This document should be considered as a living document that needs to be adapted when new information becomes available and/or when we have new insights. The information in this document can help in the strategic decision making.

Kind regards,

Also on behalf of [REDACTED]

Subject: WPO PFAS RESTR - Timetable for WebEx 18 May

AZ: 721 65/03.00854-R

Dear All,

In preparation of our next meeting I already send you the updated timetable with deadlines for the PFAS restriction process. We would like to align and finalize the timetable in the next monthly meeting on the 18<sup>th</sup> of May. This timetable should represent the general guideline for the planning of the process. I would ask the different WPs to adjust their own timetable to this general one. Of course, the timetable of the WPs can be more detailed, including further milestones.

Best regards,

for the German CA
