II. MEDICAL

A. Institution of Periodic Medical Examinations

This is urgently recommended to all companies. Medical advice as to organizationa procedures will be given by the Foundation upon request.

B. Organization of a Diagnostic Panel for Asbestosis

Arranged by the Foundation's Medical Director and organized to meet in Pittsburgh at suitable intervals for scientific review of diagnostic problems, reading of x-ray films, etc. Panel to consist of individual company physician or medical consultants together with other medical authorities to be determined.

C. Statistical Study of Existing Medical Records

Designed to find answers to important questions concerning medical and physical nature of asbestosis; especially concerned with records of State of North Carolina, Metropolitan Life Insurance Company, etc.

III. PHYSICAL TESTING -- (Further Dust Studies)

Studies of physical and chemical characteristics of asbestos dust designed, in conjunction with medical studies, to provide more significant information concerning the nature of the dust exposure; to develop supplementary techniques for measuring remaining asbestosis hazard after reduction of dust to meet the present standard; to insure that effective control of dust has been attained.

This is a step by step program aimed at the elimination of asbestosis cases from the plants of Asbestos Textile Institute members.
