

LEAD INDUSTRIES ASSOCIATION, INC.

292 MADISON AVENUE

NEW YORK, N. Y. 10017

January 9, 1964

SUBJECT: INQUIRY LIST FROM
1963 CHEMICAL SHOW

To Members of the Lead Industries Association, Inc:

Attached is a list of inquiries we received at the 29th Exposition of Chemical Industries which was held in the New York Coliseum Dec. 2-6, 1963.

The list is arranged in alphabetical order by geographical location. It is further broken down into categories according to subject of inquiry, thus if one person asked for several things, his name would appear more than once on the list. These inquiries have all been answered and the names placed on our mailing list.

We are particularly gratified to have received more inquiries from this show than from any previous Chemical Show--especially since total attendance for this year showed an overall decrease.

The total of individuals leaving their names for further information was 361. The breakdown follows:

Chemical construction and tank linings	124
General Lead information and "Lead" list	98
Organolead Compounds	64
Lead Abstracts	39
Miscellaneous (Batteries, Architectural, etc.)	37
Radiation Shielding	20
Sound & Vibration Control	19
Plumbing	17
Ceramics	16
Paints & Pigments	14

We have also attached a photograph of our exhibit in case you were unable to attend the show.

Sincerely,

Jerome F. Smith

Jerome F. Smith

JFS:so'h
