5-YEAR LEAD STUDY

Ref.: Your letter of October 1, 1970

Thank you for informing us about the planned curtailment of activities at Barksdale. We had heard that this would be occurring, but did not know when changes would take effect.

Because of the curtailment, we will not plan to add any additional Barksdale subjects to the 5-year study.

It would be helpful if you could plan to collect samples between January and April 1971 on the lead study employees who will be leaving Barksdale, in order to complete the fifth year of data for as many subjects as possible.
