SUBJECT : BEAMA paper

DEC 21 REC'D

REFERENCE :

TO : C.W. Roos, St Louis

The attached manuscript is proposed for presentation at the BEAMA Conference on Insulation at Brighton in May 1974. It covers material on PCBs in the environment which we have disclosed before in one form or another.

We would appreciate it if you could arrange clearance through the system as rapidly as possible since the conference organizers are anxious to have the manuscript by the year end.

Many thanks.

R.A. Baxter
